SILENT

Don't (be) disturb(ed) with noise in the night.
Felt elements help making every move silent.

FUNCTIONAL

Recharge your smartphone and tablet wireless.
Hide your items in flap covered compartments.

MODULAR

Customize your own Dyno bedside table by adding
lamp and box to the basic pack. Choose your color.

LUMINOUS

With the soft light, save your eyes in the night. You
can carry it around the house. No plugging needed.

Concept

Dyno. A light, smart and elegant bedside table...

As I never found my ideal bedside table, I decided to create it. More than 50 people and friends (every age and genre) helped me by answering my questions about their bed habits.

They need a bedside storage for books and stuff, some place to hide intimate things, a phone charger, a soft lamp they can walk with to the toilet, and no noise for a better night. I combined those needs and added my personal touch to create this product...

...hide and charge
your phone under the
felt flap with included
USB...

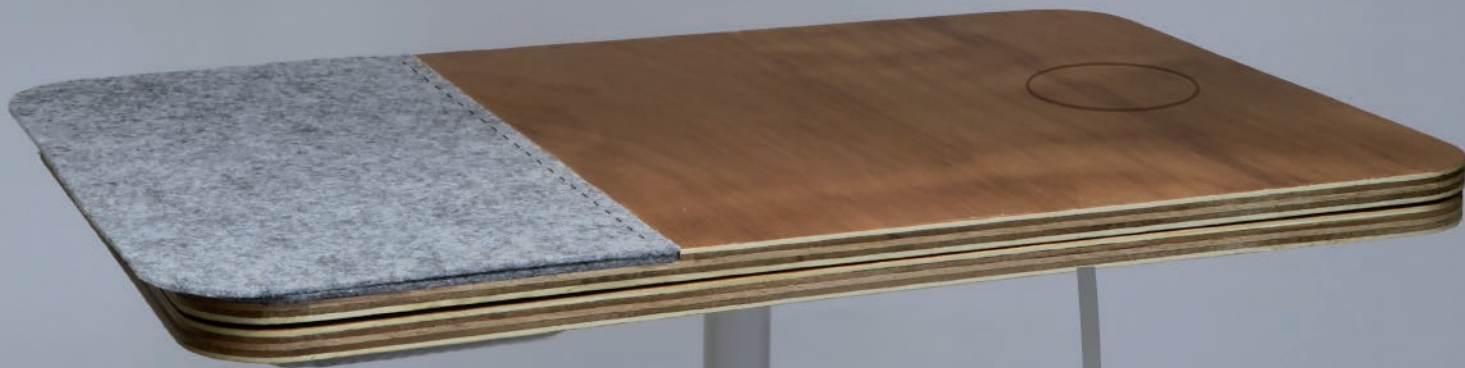

...felt compartments ensure silence
when taking off your jewelry or watch...

Pivot the plates over your bed
to watch a video

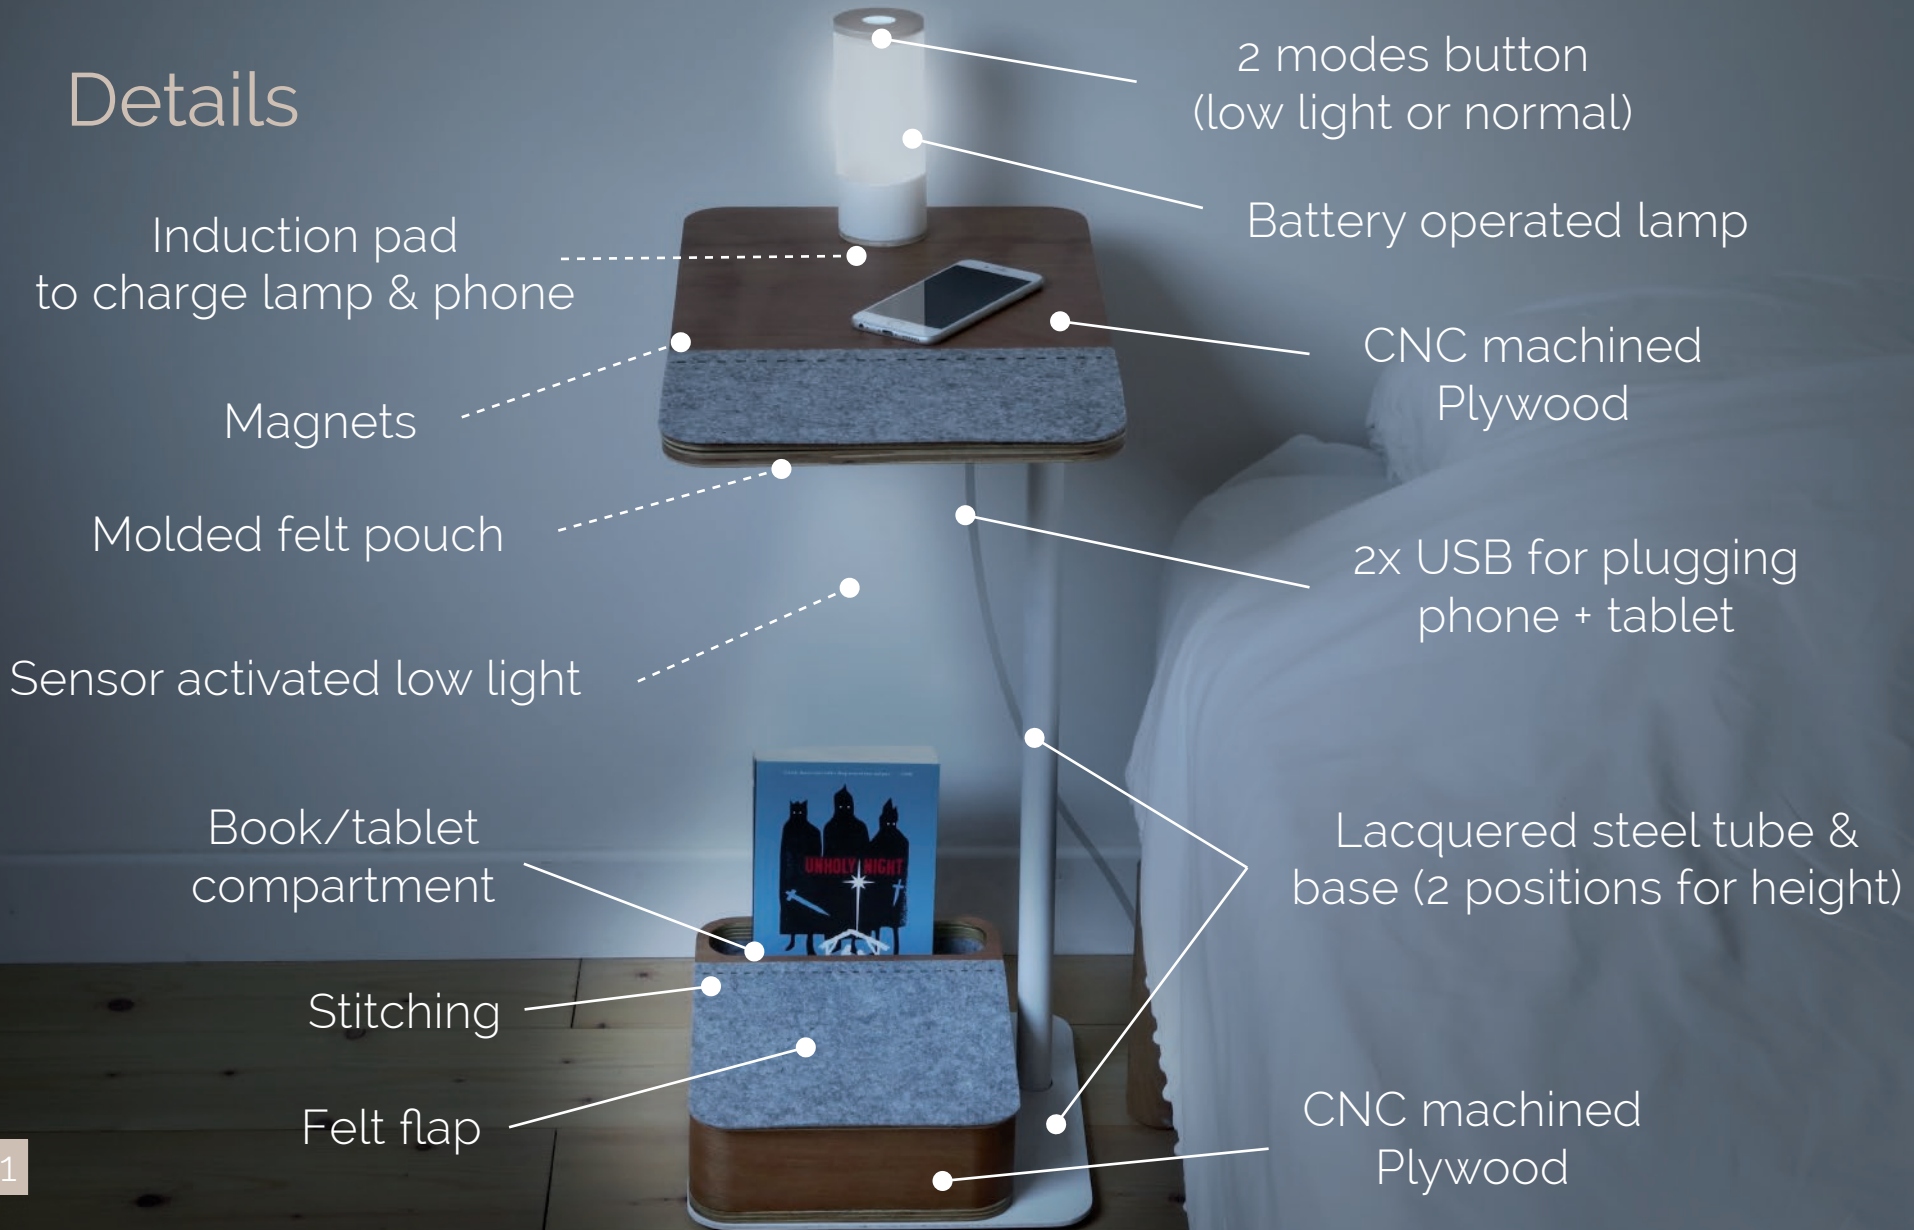

Light is portable...
...so you can walk with it around

Magnetic plate can be carried too

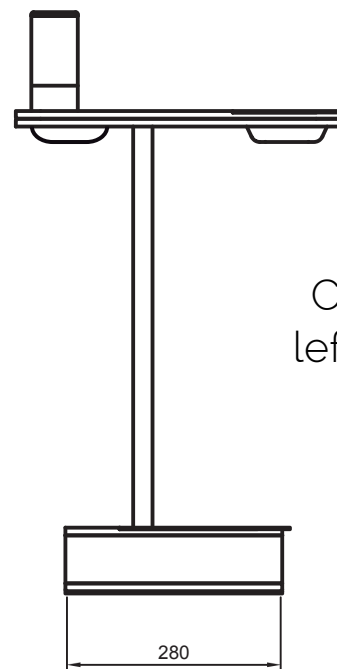

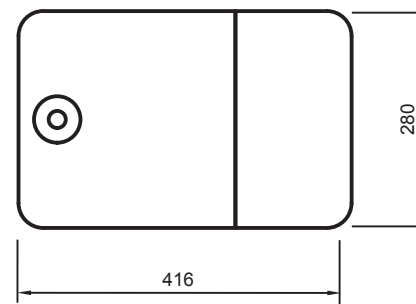

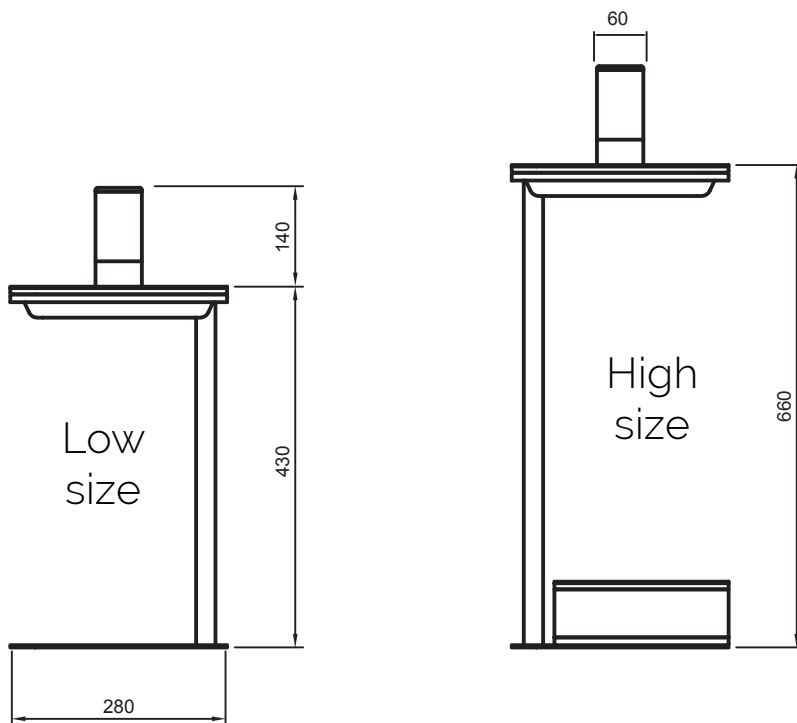

Details
